## Helping You Do What You Love: International Transcript Evaluation

To support equity and diversity in the profession, The Early Childhood Career Navigation team at CDE is proud to offer the **facilitation** and **payment** of International Transcript Evaluation.

We utilize NACES member, IEE – International Education Evaluations, as our vendor. They use both year count and benchmarking methodology.

The process:

- Compile your [required documents](#):
  - We accept scanned copies as well as photos of documents
  - Documents can be in home language or translated
- Submit your documents through our submission forms:
  - [English](#) and [Spanish](#)
- On the submission form, include:
  - Degree obtained
  - Country of school attended
  - If your international transcript includes EC related coursework
  - If you have a current ECPC application
  - Identification fields
- Once received, you will be notified, and we will take care of the rest!
  - On occasion, IEE may need additional documentation; we will email you in these instances

You will receive a digital copy of your evaluated documents for use in your early childhood career! We will also notify the credential team at CDEC in the event you have an application pending or in review.

Turnaround times range from 3-8 business days.
